During our first semester, students and staff learned about what it means to have a *GROWTH MINDSET*. Each classroom wrote a definition of *Growth Mindset* to share during morning announcements. This semester we are putting our focus on producing *HIGH QUALITY WORK*. Students will read class definitions of High Quality Work during morning announcements. Here is an example from a 3rd grade class:

High quality work is rigorous. It is work that makes you think. High quality work is ready for the world. It is well crafted and done with care and attention to detail. High quality work takes time. You help each other and encourage each other to keep trying. High quality work needs a growth mindset, confidence and perseverance. You keep trying to make your work better and better and when you finish IT FEELS AMAZING!!!
